

The Health Adventure is happy to announce the following internship opportunity for 2004-2005. Internships may be applied to service-learning requirements or to internship credits at the student's college or university. The Health Adventure will provide all training and programming materials for the duration of the internship program.

Education Intern

Program Description: The Health Adventure offers on-site educational programs to school groups throughout the academic year. These interactive programs are designed to meet current Competency Goals from the North Carolina Standard Course of Study and address issues like nutrition, dental health, electricity, and lasers. Programs vary in length from a half hour to ninety minutes and involve direct interaction with our visitors.

Internship Duties: Interns are needed to teach several of our most popular programs. Exact programs will vary depending on the time of year and scheduling. Interns will need to learn program materials, observe educators teaching the programs, and deliver the programs to our visiting school groups. Programs are offered Tuesday-Friday at 9:00 a.m., 10:30 a.m., 12:00 p.m., and 1:30 p.m.

Internship Goals: This internship seeks to provide health and science teaching experience through direct involvement with our visitors that will further the career goals of all interns. Interns will gain experience in museum programming, teaching, and visitor supervision.

Time: Interns are needed throughout the academic year. The weekly time commitment is flexible but must conform to our program schedule. Interns should be able to provide 5 hours of service or more per week. Schedules will be arranged on an individual basis.

Requirements: We are looking for interns with experience in education and public speaking who are willing to commit to a regular schedule and who are comfortable working with children in an educational environment. Previous teaching experience a plus.

Number of Positions: The Health Adventure is currently recruiting 2 interns. Both positions are unpaid.

Application Process: Interested applicants may apply by submitting an application form (attached), cover letter, resume, and list of references to:
